Dear Licensee:

This refers to the above-mentioned application dated February 27, 2019, requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that the instant STA requests to operate pursuant to the post transition construction permit with the exception of reducing the ERP from 1MW to 765kW until the main transmitter is operational and brought online. You mentioned that Reduced ERP is necessary because the post transition Channel 26 main transmitter will not be delivered, installed, and proofed in time to produce 1MW ERP as authorized for its phased deadline.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **September 7, 2019**.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
