Dear Licensee:

This refers to your request dated March 19, 2019, for special temporary authority (STA) to operate at variance. You indicate the purpose of this STA application is to allow WEUX to temporarily operate with alternate parameters on its post-transition channel (21) using a side-mounted directional interim antenna (TFU-16WB C160) while the new post-transition main antenna is installed. You mentioned that the proposed WEUX temporary operation will completely encompass its community of license.

In light of the above, special temporary authority is **GRANTED** pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **October 2, 2019**.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
