Re: WNJU
0000069113
Linden, NJ
Fac Id: 73333

Dear Licensee:

This refers to the above-mentioned application dated April 2, 2019 requesting further extension of your authority to operate at variance. You indicate that WNJU, is currently authorized to operate on its pre-auction RF channel 36 alternately, on an as needed basis, from (1) the upper antenna located at One World Trade Center ("1WTC") and (2) the lower antenna located at 1WTC. You mentioned that flexibility for WNJU to alternate operations from the lower and upper antenna and vice versa, is necessary during the repack transition to allow work on the 1WTC antennas and combiner systems, and to accommodate the needs of the other stations located at 1WTC. Accordingly, WNJU requests for an extension of the Upper Antenna STA so that WNJU may continue to serve its viewers while it coordinates with the co-tenants of the master antenna system at 1WTC during this post-auction repack transition period.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **October 3, 2019**.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
