<p>Special Operating Conditions or Restrictions</p> <p>The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.</p> <ul style="list-style-type: none"> • The relative field strength of neither the measured horizontally nor vertically polarized radiation component shall exceed at any azimuth the value indicated on the composite radiation pattern authorized by this construction permit. A relative field strength of 1.0 on the composite radiation pattern herein authorized corresponds to the following effective radiated power: 6.0 kilowatts. Principal minima and their associated field strength limits: 50 degrees True: 1.80 kilowatts • ***** This is a Section 73.215 contour protection grant ***** as requested by this applicant ***** • Grant of this license application is conditioned on the continuous operation of the licensed facility for the twelve-month period following grant. The failure of the facility to so operate will result in the rescission of this grant, dismissal of the license application and the forfeiture of the associated construction permit pursuant to 47 C.F.R. § 73.3598(e) unless the licensee rebuts the presumption that the authorized facilities were temporarily constructed. • The allotment underlying this construction permit was obtained through the Tribal Priority. Pursuant to Policies to Promote Rural Radio Service and to Streamline Allotment and Assignment Procedures, First Report and Order, 25 FCC Rcd 1583 (2010), Second Report and Order, 26 FCC Rcd 2556, Third Report and Order, 26 FCC Rcd 17642 (2011), and 47 C.F.R. Section 73.3573(f)(6) and Note 5, the permittee shall be subject to a holding period. From the grant of the construction permit and continuing until the facility has achieved four years of on-air operations, the permittee may not (a) assign or transfer the construction permit, except to another party that qualifies for the Tribal Priority under which the Tribal Allotment was awarded in all respects; (b) change the community of license; or (c) make a technical change that would cause less than 50 percent of the principal community contour to cover tribal lands.

Subject to the provisions of the Communications Act of 1934, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this license, the licensee is hereby authorized to use and operate the radio transmitting apparatus herein described.

This license is issued on the licensee's representation that the statements contained in licensee's application are true and that the undertakings therein contained so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the term of this license, render such broadcasting service as will serve the public interest, convenience, or necessity to the full extent of the privileges herein conferred.

This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequency designated in the license beyond the term hereof, nor in any other manner than authorized herein. Neither the license nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This license is subject to the right of use or control by the Government of the United States conferred by Section 606 of the Communications Act of 1934.
