## FM TRANSLATOR BROADCAST STATION CONSTRUCTION PERMIT

**Permittee**

HIGH DESERT BROADCASTING  
LLC  
715 BROADWAY  
SUITE 320  
SANTA MONICA, CA, 90401

**Call Sign**

K259BD

**Facility ID**

143757

<b>File Number</b> 0000137497	<b>This Permit Modifies License File No.</b> BLFT-20080620AJY	
<b>Filing Date</b> 03/03/2021	<b>Grant Date</b> 07/07/2021	<b>Expiration Date</b> 07/06/2024

<b>Community of License</b>  <b>City:</b> ROSAMOND <b>State:</b> CA	<b>Frequency (MHz)</b> 99.7	<b>Station Channel</b> 259	<b>Station Class</b> D
<b>Primary Station</b> KUTY PALMDALE CA	<b>Via</b> Microwave		
<b>Hours of Operation:</b> Unlimited			

<b>Transmitter</b> Certified for compliance per 74.1250 or verified for compliance per 73.1660 of the Commission's Rules.	<b>Transmitter Output Power</b> As required to achieve authorized ERP.
<b>Antenna Type</b> Directional	<b>Antenna Coordinates (NAD 83)</b> <b>Latitude</b> 34-58-44.9 N <b>Longitude</b> 118-10-05.2 W
<b>Major Lobe Directions</b> 150	

	<b>Horizontally Polarized Antenna</b>	<b>Vertically Polarized Antenna</b>
--	---	---

<b>Effective Radiated Power in the Horizontal Plane (kW)</b>	0	0.25
<b>Height of Radiation Center Above Ground (meters)</b>	0	5
<b>Height of Radiation Center Above Mean Sea Level (meters)</b>	0	905.0
<b>Height of Radiation Center Above Average Terrain (meters)</b>	-28.8	

<b>Antenna Structure Registration Number</b> Not Required	<b>Overall Height of Antenna Structure Above Ground (meters)</b> 24
--	--

#### **Obstruction Marking and Lighting Specifications for Antenna Structure**

It is expressly understood that the issuance of these specifications is in no way to be considered as precluding additional or modified marking or lighting as may hereafter be required under the provisions of Section 303 (q) of the Communications Act of 1934, as amended.

#### **Special Operating Conditions or Restrictions**

The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.

- The permittee/licensee shall, upon completion of construction and during the equipment test period, make proper radiofrequency electromagnetic (RF) field strength measurements throughout the transmitter site area to determine if there are any areas that exceed the FCC guidelines for human exposure to RF fields. If necessary, a fence must be erected at such distances and in such a manner as to prevent the exposure of humans to RF fields in excess of the FCC Guidelines (OET Bulletin No. 65, Edition 97-01, August 1997). The fence must be a type which will preclude casual or inadvertent access, and must include warning signs at appropriate intervals which describe the nature of the hazard. Any areas within the fence found to exceed the recommended guidelines must be clearly marked with appropriate visual warning signs.
- The permittee/licensee and any successor in interest (licensee) shall be subject to the following restrictions. From the grant of the construction permit and continuing until the facility has achieved four years of on-air operations rebroadcasting the primary AM station identified on this authorization, the licensee may NOT change such primary station being rebroadcast by this translator, nor may it rebroadcast another station when the primary station identified on this authorization is silent. Periods of station silence shall not count toward the fulfillment of this four-year requirement. During this same four-year period the licensee may not assign or transfer the construction permit/license to another party, unless it is to the licensee of the AM station identified on this authorization or unless such assignment or transfer provides for the continuing right of the primary station to rebroadcast on the translator. Minor modifications of this authorization are permitted, provided that the translator will continue to rebroadcast the AM station for which the modification was granted.
- Prior to commencing program test operations, FM Translator or FM Booster permittee must have on file an Application for an FM Translator or FM Booster Station License, pursuant to 47 C.F.R. Section 74.14.

Subject to the provisions of the Communications Act of 1934, as amended, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this permit, the permittee is hereby authorized to construct the radio transmitting apparatus herein described. Installation and adjustment of equipment not specifically set forth herein shall be in accordance with representations contained in the permittee's application for construction permit except for such modifications as are presently permitted, without application, by the Commission's Rules(See Section 83.875).

Pursuant to Section 73.3598, this Construction Permit will be subject to automatic forfeiture unless construction is complete and application for license is filed prior to expiration.

Equipment and program tests shall be conducted only pursuant to Sections 73.1610 and 73.1620 of the Commission's Rules.
