## **Federal Communications Commission**

## FM STATION LICENSE

**Permittee** 

SALEM MEDIA OF HAWAII, INC. 4880 SANTA ROSA ROAD

Call Sign	Facility ID
KAIM-FM	10950

<b>File Number</b> 0000185042	This License Modifies License BLH-19990430KB	cense No.		
Filing Date 02/18/2022	Grant Date 06/21/2022		ration Date 1/2030	
Community of License City: HONOLULU State: HI	Frequency (MHz) 95.5	Station C 238	Channel	Station Class C
Hours of Operation: Unlimited	A DO		MIS	
Facility Type: Commercial	SA ZA		O. T.	
Transmitter Certified for Compliance. See and 73.1670 of the Commission		Transmitter Outp 3.95 kW	out Power	
Antenna Type Directional		Antenna Coordinates (NAD 83)  Latitude 21-23-33.6 N  Longitude 158-5-48.1 W		

Antenna Description Shively,6014, 14 bays,1.0
---

**Major Lobe Directions** 

Not Applicable

Horizontally Polarized	Vertically Polarized
Antenna	Antenna

Effective Radiated Power in the Horizontal Plane (kW)	100	100
Height of Radiation Center Above Ground (meters)	39	39
Height of Radiation Center Above Mean Sea Level (meters)	734	734
Height of Radiation Center Above Average Terrain (meters)	565	565

Antenna Structure Registration Number	Overall Height of Antenna Structure Above Ground (meters)
1218023	See the registration for this antenna structure.

## **Obstruction Marking and Lighting Specifications for Antenna Structure**

See the registration for this antenna structure.

## **Special Operating Conditions or Restrictions**

The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.

- The authority granted herein is subject to the condition that the field strength from the licensee's transmitter shall not exceed 27 mV/m as measured at the Federal Communications Commission's Honolulu, Hawaii monitoring station. In the event of interference to monitoring, direction finding, or related operations at the Federal Communications Commission's Honolulu, Hawaii monitoring station caused by either harmonic or spurious radiation, the licensee shall take such immediate corrective action as is necessary to eliminate the interference. This shall include responsibility for furnishing, installing, and adjusting transmitter filter circuits, shielding, or other corrective devices. If these measures fail to eliminate interference to FCC operations caused by the presence of the licensee's signal, or if the field strength exceeds 27 mV/m, the licensee shall immediately reduce power to the extent necessary to eliminate the interference and to comply with field limit. After determining this lower power level, the licensee shall immediately apply for a Special Temporary Authority (STA) and shall file an application to the Commission for the altered parameters.
- The relative field strength of neither the measured horizontally nor vertically polarized radiation component shall exceed at any azimuth the value indicated on the composite radiation pattern authorized by construction permit BPH-19990421IA. A relative field strength of 1.0 on the composite radiation pattern herein authorized corresponds to the following effective radiated power: 100 kilowatts. Principal minimum and its associated field strength limit: 220 - 320 degrees True: 4.0 kilowatts.

Subject to the provisions of the Communications Act of 1934, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this license, the licensee is hereby authorized to use and operate the radio transmitting apparatus herein described.

This license is issued on the licensee's representation that the statements contained in licensee's application are true and that the undertakings therein contained so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the term of this license, render such broadcasting service as will serve the public interest, convenience, or necessity to the full extent of the privileges herein conferred.

This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequency designated in the license beyond the term hereof, nor in any other manner than authorized herein. Neither the license nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This license is subject to the right of use or control by the Government of the United States conferred by Section 606 of the Communications Act of 1934.
