WWHB-CD, Stuart, Florida
Facility ID No. 63557
LMS File No. 0000184781

Dear Licensee:

This letter is in reference to the above-captioned application for legal special temporary authority (Legal STA) filed by WTVX Licensee, LLC (Licensee), licensee of full power television station WWHB-CD, Stuart, Florida (WWHB or Station).¹ In its Legal STA, the Licensee requests authorization to allow the Station's non-primary programming streams (multicast streams) to be aired in an ATSC 1.0 format, with no ATSC 3.0 simulcast, on WPTV-TV (WPTV), West Palm Beach, Florida, licensed to Scripps Broadcasting Holdings LLC; WFLX(TV), West Palm Beach, Florida (WFLX), licensed to Gray Television Licensee, LLC; and WPBF(TV), Tequesta, Florida (WPBF), licensed to Hearst Properties, Inc. (collectively, Multicast Hosts).² These arrangements between the Licensee and the Multicast Hosts have been entered into in connection with the Station's transition of its facilities to the ATSC 3.0 transmission standard. Although the Licensee has agreed to indemnify the Multicast Hosts from all liabilities or claims resulting from the airing of its multicast streams over the Multicast Hosts' channels,³ it has requested the instant authorization to make clear that it will remain responsible from a statutory and regulatory perspective for the Station's multicast streams. Specifically, the Licensee requests that WWHB be treated as if it is still originating the multicast streams and be considered the responsible party for compliance with any obligations under the Communications Act of 1934, as amended (Act) and the Commission's rules (Rules).⁴ For the reasons below, we grant the Licensee's request.

Background. On March 7, 2022, the Video Division granted the Station's application for modification of license to convert its existing broadcast facilities to ATSC 3.0 transmission.⁵ As required

¹ Application of WTVX Licensee, LLC for Legal Special Temporary Authority, LMS File No. 0000184782 (filed Feb. 14, 2022) (Sinclair Legal STA).

² WPTV is licensed to operate on RF Channel 12, WFLX is licensed to operate on channel 35, and WPBF is licensed to operate on RF Channel 16.

³ Sinclair Legal STA, Narrative Exhibit at 2.

⁴ *Id.* See *Authorizing Permissive Use of the "Next Generation" Broadcast Television Standard*, GNDocket No. 16-142, Report and Order and Further Notice of Proposed Rulemaking, 32 FCC Rcd 9930, 9970-73, paras. 79-82 (2017) (*Next Gen TV Report and Order*) (requiring Next Gen TV broadcasters to comply with all Commission broadcast rules, including, but not limited to, the Rules regarding foreign ownership, political broadcasting, children's programming, equal employment opportunities, public inspection files, indecency, sponsorship identification, etc.).

⁵ Application of WTVX Licensee, LLC for Modification of License, LMS File No. 0000184779 (granted Mar. 7, 2022) (Sinclair License Modification).

by section 73.3801 of the Rules,⁶ the Station's primary stream will be simulcast in an ATSC 1.0 format over the facility of commonly-owned station WTVX(TV), Fort Pierce, Florida (WTVX).⁷ In addition to its primary stream, the Station currently broadcasts three non-primary multicast streams: (1) *Charge!*, (2) *Stadium*, and (3) *Rewind TV*.⁸ In order to avoid the loss of the Station's over-the-air multicast programming to its current ATSC 1.0 viewers, the Licensee has entered into a written agreement with the Multicast Hosts to broadcast *Charge!* over WPTV, *Stadium* over WFLX, and *Rewind TV* over WPBF.⁹

As noted in the Legal STA, because of ATSC 1.0 capacity constraints, the Station is not able to air all of its multicast streams on the same channel as its primary ATSC 1.0 simulcast signal.¹⁰ Furthermore, due to capacity and other constraints the Station is not able to simulcast an ATSC 3.0 version of its multicast streams.¹¹ Pursuant to an engineering study conducted by the Licensee, 100 percent of the Station's current over-the-air ATSC 1.0 viewers will retain access to its multicast programming over the Multicast Hosts channels.¹² Absent the proposed arrangements and grant of the instant request, the Licensee states that "all over-the-air viewers would lose access to WWHB-CD's multicast streams."¹³

The Licensee goes on to state that it has provided the requisite notice to MVPDs regarding relocation of the Station's primary ATSC 1.0 stream and its non-primary multicast streams.¹⁴ The Station is also airing the requisite over-the-air announcements regarding its transition to the ATSC 3.0 standard and the need for over-the-air viewers to rescan their television sets to continue to receive WWHB's ATSC

⁶ 47 CFR § 73.3801(b).

⁷ See Sinclair License Modification. WTVX is commonly owned with WWBH-CD and licensed to operate on RF Channel 22.

⁸ Sinclair Legal STA, Narrative Exhibit at 1.

⁹ *Id.*

¹⁰ *Id.* We also note that stations are not required to air their multicast channels as part of their ATSC 3.0 conversion. See *Next Gen TV Report and Order*, 32 FCC Rcd at 9937-38, para. 13, n.40 ("The provision of multicast channels is discretionary, and we decline to adopt rules requiring broadcasters who currently air such channels to continue to do so."); see also *infra* note 26.

¹¹ Sinclair Legal STA, Narrative Exhibit at 1. Specifically, Licensee states that simulcasting those streams in ATSC 3.0 would reduce capacity available to NextGen stations for offering consumers the improved services that ATSC 3.0 enables. The types of services and improvements that would be precluded would include enhanced video featuring High Dynamic Range, Wide Color Gamut and High Frame Rate, immersive and multiple audio channels using Dolby AC-4, Advanced Emergency Alerting and Information functions as part of a broadcast receiver application, and non-real time interactive data delivery. Each of these requires a portion of the ATSC 3.0 capacity that would be unavailable were Licensee to carry multicast program streams as the ATSC 3.0 host for stations in the West Palm Beach-Fort Pierce, FL market. *Id.* The Licensee notes even setting aside these impediments, significant additional engineering work and more equipment would be required to simulcast WWHB-CD's multicast streams in ATSC 3.0 and ATSC 1.0 formats. Obtaining, installing and testing that equipment would, at a minimum, delay rollout of ATSC 3.0 in that market. *Id.*

¹² *Id.* at 2; Sinclair Legal STA, Engineering Showing at 1. We also note that over 100 percent of the Station's current over-the-air ATSC 1.0 viewers will retain access to its primary programming over WTVX. Sinclair License Modification, Engineering Statement at 1-2.

¹³ Sinclair Legal STA, Narrative Exhibit at 2.

¹⁴ *Id.* See 47 CFR § 73.3801(g) (Notice to MVPDs).

1.0 programming streams.¹⁵ In order to alleviate any viewer confusion, the PSIP (virtual) channel for each of WWHB's programming streams will remain unchanged and will be identified to viewers as being associated with WWHB.¹⁶ The Licensee plans to convert the Station's facilities to ATSC 3.0 and the need for over-the-air viewers to rescan on March 8, 2022.¹⁷

Discussion. We conclude, based on the facts and circumstances presented, that the public interest would be served by the grant of the Licensee's Legal STA. Under the Commission's rules, Next Gen TV Broadcasters are not required to continue airing their existing non-primary multicast streams.¹⁸ Grant of the instant Legal STA will promote the continued transmission of the Station's non-primary multicast programming streams in an ATSC 1.0 format to viewers and make clear that the Station is responsible for the content of those signals from a regulatory compliance and enforcement perspective. Therefore, for purposes of all statutory and regulatory obligations related to the Station's non-primary multicast streams, we will treat those signals as multicast streams being originated by the Station even though they are being transmitted over the Multicast Hosts' channels. The Licensee is the sole party responsible for ensuring compliance with all statutory and regulatory requirements with regard to all of its original non-primary multicast streams. This includes, but is not limited to, our rules regarding political broadcasting, children's programming,¹⁹ equal employment opportunities, public inspection files, indecency, sponsorship identification, station identification, contests, the CALM Act, and the Emergency Alert System.²⁰ Furthermore, we decline to require the Station to air an ATSC 3.0 version of the ATSC 1.0 non-primary multicast streams being aired over the Multicast Hosts' channels given the capacity and engineering constraints that the Licensee has described.

Further, given that the current arrangement is temporary and is in furtherance of an ATSC 3.0 simulcasting arrangement, we will not apply the broadcast ownership rules to the extent that the arrangements would result in a potential violation of those rules. We find this approach is consistent with the Commission's decision and underlying basis to "not apply the broadcast ownership rules in any situation where airing an ATSC 3.0 signal or an ATSC 1.0 simulcast on a temporary host station's facility would result in a potential violation of those rules."²¹

Accordingly, the application of WTVX Licensee, LLC, licensee of WWHB-CD, Stuart, Florida, **IS GRANTED** for a period of six months from date of this letter – hereby expiring on September 6, 2022. For purposes of the Act and the Commission's rules, we will consider the multicast program streams to be originated by the Station, even though the streams are being aired over the Multicast Hosts' channels. Any change in the non-primary multicast streams being aired over the Multicast Hosts by the

¹⁵ Sinclair Legal STA, Narrative Exhibit at 2. See 47 CFR § 73.3801(f) (Consumer Education for Next Gen TV stations).

¹⁸ *Supra* note 11.

¹⁹ The Licensee notes in its Legal STA that it does not currently and it does not intend to rely on its multicast streams for compliance with Children's Television Programming Requirements. Sinclair Legal STA, Narrative Exhibit at 2..

²⁰ See *supra* note 4.

²¹ *Next Gen TV Report and Order*, 32 FCC Rcd at 9972, para. 80, n.237. See also *Promoting Broadcast Internet Innovation through ATSC 3.0*, MB Docket No. 20-145, Declaratory Ruling and Notice of Proposed Rulemaking, 35 FCC Rcd 5916, 5924, para. 15 (2020).

Station or relocating any of the non-primary multicast streams to a new ATSC 1.0 multicast host will require the filing of a new request. By this grant, the Licensee agrees to coordinate with MVPDs as necessary. Because multicast signals are not entitled to mandatory carriage rights,²² any impact on an MVPD's ability to carry WWHB-CD's non-primary multicast streams pursuant to a retransmission consent agreement is subject to the terms of the private contractual relationships between WWHB-CD and the affected MVPDs. According to the Licensee, it will coordinate with all impacted MVPDs to ensure that they continue to receive a good quality signal of the non-primary multicast streams over-the-air or via alternative delivery methods.²³ Our grant of the instant STA authorization shall not prejudice the outcome of the Commission's current ATSC 3.0 proceeding relating to the licensing of multicast streams and will be subject to the outcome of the proceeding.²⁴

Sincerely,

/s/

Barbara A. Kreisman

²² See *Carriage of Digital Television Broadcast Signals: Amendment to Part 76 of the Commission's Rules*, CS Docket Nos. 98-120, 00-96 and 00-2, First Report and Order and FNPRM, 16 FCC Rcd 2598, 2621-22, para. 54 (2001); *affirmed by Carriage of Digital Television Broadcast Signals: Amendment to Part 76 of the Commission's Rules*, Second Report and Order and First Order on Reconsideration, CS Docket No. 98-120, 20 FCC Rcd 4516, 4518, para. 3 (2005) (*DTV Must-Carry Second R&O*) (declining to require cable systems to carry a licensee's multicast streams). In the *DTV Must-Carry Second R&O*, the Commission affirmed its decision in the First Report and Order to interpret the statutory term "primary video" to mean only a single programming stream. If a digital broadcaster elects to divide its digital spectrum into several separate programming streams, only one of these streams is entitled to mandatory carriage. *Id.* at 4530-37, paras. 28-44.

²³ Sinclair Legal STA, Narrative Exhibit at 2.

²⁴ In the *Second ATSC 3.0 FNPRM* the Commission seeks comment on issues related to the licensing of ATSC 1.0 multicast streams by stations that have converted their facilities to ATSC 3.0 operations. See *Authorizing Permissive Use of the "Next Generation" Broadcast Television Standard*, Second Further Notice of Proposed Rulemaking, GN Docket No. 16-142, FCC 21-116 (rel. Nov. 5, 2021) (*ATSC 3.0 Second FNPRM*); see also *Petition for Declaratory Ruling and Rulemaking of the National Association of Broadcasters*, GN Docket No. 16-142 (filed Nov. 9, 2020) (Petition). The Commission stated that during the pendency of the rulemaking it will "maintain the status quo and permit the Bureau to continue to process STA requests and 3.0 license applications in the same manner it has to date." *ATSC 3.0 Second FNPRM* at n. 47. We find that the instant request is consistent with the Bureau's prior actions under the STA process. The Commission also stated that "any STA or 3.0 license application granted previously or during the course of this proceeding containing such multicast arrangements shall not prejudice the outcome of this proceeding, and any such STA or 3.0 license application will be subject to the outcome of this proceeding." *Id.* Accordingly, we want to make clear that our action herein is not intended to prejudge the outcome of the proceeding and all licensees must come into compliance with any rules adopted by the Commission, therein, to the extent this authorization conflicts.
