Dear Licensee:

This letter concerns the requests to reinstate and extend license, extend silent authority, and provide waiver of the tolling rules, as amended (Requests), filed by Edge Spectrum, Inc. (Edge) licensee of low power television (LPTV) station K43LK-D, Lawton, Oklahoma (Station). For reasons set forth below, we grant Edge's Requests, waive all applicable rules, reinstate and extend the Station's license and silent authority, toll the Station's digital construction permit, and grant its application for license to cover (License Application).

*Background.* Section 312(g) of the Communications Act of 1934 (the Act) provides that “[i]f a broadcasting station fails to transmit broadcast signals for any consecutive 12-month period, then the station license granted for the operation of that broadcast station expires at the end of that period, notwithstanding any provision, term, or condition of the license to the contrary, except that the Commission may extend or reinstate such station license...for any reason to promote equity and fairness.”<sup>1</sup> In the *Incentive Auction R&O*, the Commission explained that it would be receptive to requests for reinstatement or extension of a station's license under section 312(g), “tak[ing] into account the extent to which a station has been involuntarily forced to remain dark as a result of the repacking process and whether, in light of the facts presented, equity and fairness dictate a license extension or

<sup>1</sup> 47 U.S.C. § 312(g). The Bureau's discretion under that provision of section 312(g) is severely limited. *See e.g. A-O Broad. Corp.*, Memorandum Opinion and Order, 23 FCC Rcd 603, 617, para. 27 (“This limited, discretionary provision is phrased as an exception to the general rule that most affected licenses will be forfeited”). The Commission has exercised its authority to reinstate an expired license to “promote equity and fairness” only where the station failed to provide service for 12 consecutive months due to compelling reasons beyond the licensee's control. *See, e.g., V.I. Stereo Communications Corp.*, Memorandum Opinion and Order, 21 FCC Rcd 14259 (2006); *Community Bible Church*, Letter, 23 FCC Rcd 15012, 15014 (MB 2008); *Mark Chapman, Court-Appointed Agent*, Letter, 22 FCC Rcd 6578 (MB 2007). The Commission has declined to reinstate licenses where the failure to transmit a broadcast signal was due to the licensee's own actions, finances, and/or business judgment *See, e.g., A-O Broadcasting*, 23 FCC Rcd at 617, para. 27; *ETC Communications, Inc.*, Letter, 25 FCC Rcd 10686 (MB 2010); *Kirby Young*, Letter, 23 FCC Rcd 35 (MB 2008).

reinstatement and a waiver.”<sup>2</sup> Further, in the *Post-Incentive Auction Procedures PN* the Media Bureau (Bureau) stated that, in considering requests to extend or reinstate a stations license under section 312(g) in order to promote fairness and equity, it “will examine whether the station has demonstrated that its silence is the result of compelling reasons beyond the stations’ control, including facts that relate to the post-auction transition process.”<sup>3</sup> Finally, in the *Special Displacement Window PN*, the Bureau permitted stations to file a displacement application on a contingent basis for channels in the repacked television band (channels 2-36) that full power and Class A stations would be relinquishing as a result of the Incentive Auction and repacking process.<sup>4</sup> The Bureau stated that, if a conditional grant would require a LPTV or TV translator station to be silent for a consecutive 12-month period prior to discontinuation of operation by the full power or Class A station, it would “consider a request for extension or reinstatement pursuant to section 312(g) of the Act and a request for waiver of the Commission rule.”<sup>5</sup>

Requests for additional time to construct LPTV facilities are subject to the Commission’s tolling provisions of section 73.3598(b) of the Rules.<sup>6</sup> The Commission’s tolling provisions provide that a construction permit deadline may be tolled under specific circumstances such as acts of God, delays due to administrative or judicial review, or construction that is delayed by any cause of action pending before a court of competent jurisdiction relating to any necessary local, state, or federal requirement for the construction or operation of the station, including any zoning or environmental requirement.<sup>7</sup> If a station does not qualify for tolling under these criteria, good cause may exist to waive the Commission’s tolling provisions and tolling may still be warranted where the licensee can demonstrate that “rare and exceptional circumstances” prevented construction by the station’s construction permit expiration date.<sup>8</sup>

*Requests.* As part of the Incentive Auction and repacking process, the Station's pre-auction digital operating channel was displaced. The Station filed a displacement application requesting a new digital channel in the Commission's displacement application filing window for LPTV stations that were displaced by the Incentive Auction and repacking process.<sup>9</sup> The Station was granted a digital construction permit for its displacement channel (Displacement CP) with an expiration date of June 6, 2021.<sup>10</sup> In preparation for moving to its displacement channel, the Station went silent on July 3, 2020.<sup>11</sup> The Station's license was also previously reinstated and its license and silent authority most recently extended to May 1, 2023, pursuant to the equity and fairness provision of section 312(g) of the Act.<sup>12</sup>

In its Requests, Edge outlines the efforts it has taken to complete construction of the Displacement CP and of the delays that it has encountered preventing the Station from resuming operation on its digital displacement channel. These documented challenges have included equipment manufacturing and delivery delays, permitting delays, and challenges associated with a change in the Station's transmitter site. Since grant of its last tolling and license extension request, Edge states that it has acquired all of the necessary equipment to complete construction of the Station's displacement facilities; obtained approval for zoning and local permitting; and acquired the necessary notice to proceed from the Station's tower owner. On August 1, 2023, during the pendency of its Requests, Edge filed a License Application for the Station indicating that construction was complete and the Station was prepared to begin operating on its displacement channel.<sup>13</sup>

*Discussion.* Upon review of the facts and circumstances presented, we find that Edge's Requests for reinstatement and extension of the Station's license satisfies the requirements of section 312(g) as described in the *Incentive Auction R&O*, the *Post-Incentive Auction Procedures PN*, and the *Special Displacement Window PN* and are, therefore, in the public interest. Consistent with the public interest and prior Bureau actions, we will provide section 312(g) relief to displaced LPTV and TV translator stations that were displaced by the Incentive Auction and pursued new displacement channels. The Station was displaced by the Incentive Auction and repacking process. Edge's efforts to construct the Station's displacement facilities have been hindered by equipment manufacturing, zoning, and permitting delays. For similar reasons, we find that Edge has met the standard for waiver of the tolling rules, tolling, and for extension of silent authority. Grant of Edge's requests will permit the Station to once again serve its viewers.

Accordingly, the Requests filed by Edge Spectrum, Inc. **ARE HEREBY GRANTED**, the applicable Commission rules **ARE WAIVED**,<sup>14</sup> and the Station's application for license to cover **IS**
