Re: Townsquare License, LLC (Townsquare)
WOBM(AM), Asbury Park, NJ
Facility Identification Number: 14895
Special Temporary Authorization (STA)
LMS File No.: 0000219643

Dear Mr. Stabbert:

This is in reference to the request filed on August 21, 2023. Townsquare requests a further extension of the STA originally granted on November 12, 2013, as modified to continue operation with an ND antenna to allow time to complete all remaining repairs/modifications and then file the required direct measurement of power application in LMS to update all engineering parameters.¹ In support of the request, Townsquare stated that additional time will be needed to complete required repairs to the detuning system of one nearby tower and to address any effects caused by construction of multiple new apartment and warehouse buildings directly adjacent to the array tower site (before the application can be filed).

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete, and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

¹ WADB(AM) is licensed for DA operation on 1310 kHz with 2.5 kW day and 1 kW night using different patterns.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and Townsquare may continue to operate ND using tower #1 (ARSN 1224828) with a maximum of 0.625 kW daytime and 0.25 kW nighttime. Townsquare must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **February 26, 2024**.²

Sincerely,

A handwritten signature in blue ink, appearing to read "Joe Szczesny", with a stylized flourish at the end.

²Periods of operation pursuant to this STA shall be recorded in the station's records (see 47 CFR § 73.1820). The records shall include start/stop dates and times of such operation. These log entries must be maintained for a minimum of two years as specified in 47 CFR § 73.1840(a), unless a longer retention period is requested by the staff. Periods of operation may be subject to independent verification that they in fact occurred.
