Re: Ochoa Broadcasting Corporation (OBC)
WALO (AM), Humacao, PR
Facility Identification Number: 50011
Special Temporary Authority (STA)
LMS File No.: 0000219288

Dear Ms. Archilla:

This is in reference to the request filed on August 14, 2023. OBC requests a further extension of the STA granted on February 6, 1991, to continue operating ND at night using a higher power than licensed due to nighttime interference from co-channel station HICV, Barahona, Dominican Republic.¹ In support of the request, OBC stated that the interference continues.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and OBC may continue to operate using the licensed ND antenna system with an increased power of 5 kW at night (with no change to the licensed daytime 1 kW operation). This authority is subject to termination upon reduction of power or cessation of operation by station HICV, or upon Commission instruction to resume licensed 1 kW nighttime operations per BZ-19791004AD.

¹ WALO(AM) is licensed for ND operation on 1240 kHz with 1 kW (day and night).

OBC must reduce the nighttime power if complaints of interference are received.

This authority expires on **February 19, 2024.** ²

Sincerely,

A handwritten signature in blue ink that reads "Joe Szczesny". The signature is fluid and cursive, with a long horizontal stroke at the end.

Joseph Szczesny, Engineer
Audio Division
Media Bureau

²Periods of operation pursuant to this STA shall be recorded in the station's records (see 47 CFR § 73.1820). The records shall include start/stop dates and times of such operation. These log entries must be maintained for a minimum of two years as specified in 47 CFR § 73.1840(a), unless a longer retention period is requested by the staff. Periods of operation may be subject to independent verification that they in fact occurred.
