Re: IHM Licenses, LLC (IHM)  
WWTF(AM), Georgetown, KY  
Fac. ID No.: 34246  
Special Temporary Authority (STA)  
LMS File No.: 0000220143

Dear Mr. Langham:

This is in reference to the request filed on August 30, 2023. IHM requests a further extension of the STA granted on March 8, 2023, to continue operating ND with 25% power to allow time to install a new replacement tower and then file the required direct measurement of power application in LMS (302-AM) to update all operating parameters.<sup>1</sup> In support of the request, IHM stated that they are in the process of obtaining the necessary local permits to install one new tower (to replace the one knocked down in a windstorm earlier this year).

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

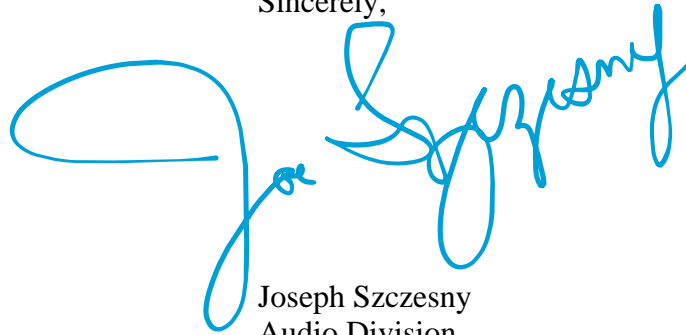

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and IHM may continue to operate ND with a maximum of 2.5 kW daytime and 0.0113 kW nighttime. IHM must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR §1.1310.

---

<sup>1</sup> WWTF(AM) is licensed for DA operation on 1580 kHz with 10 kW day and 0.045 kW night, using different patterns.

This authority expires on **March 16, 2024.** <sup>2</sup>

Sincerely,

A handwritten signature in blue ink, appearing to read "Joe Szczesny". The signature is fluid and cursive, with a large initial "J" and "S".

<sup>2</sup>Periods of operation pursuant to this STA shall be recorded in the station's records (see 47 CFR § 73.1820). The records shall include start/stop dates and times of such operation. These log entries must be maintained for a minimum of two years as specified in 47 CFR § 73.1840(a), unless a longer retention period is requested by the staff. Periods of operation may be subject to independent verification that they in fact occurred.
