Re: Estuardo Valdemar Rodriguez (EVR)
WLLN (AM), Lillington, NC
Facility Identification Number: 26151
Special Temporary Authority (STA)
LMS File No.: 000235296

Dear Mr. Rodriguez:

This is in reference to the request filed on January 12, 2024. EVR requests a further extension of the STA granted on January 14, 2022, to continue operating with a reduced daytime power of 0.05 kW due to a damaged transmitter and air conditioning system.¹ In support of the request, we noted that EVR was unable to install a new 5 kW daytime transmitter or complete all other required repairs over the past six months.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA is **HEREBY GRANTED**, and EVR may continue to operate daytime with DA parameters at variance and a reduced power of 0.05 kW while maintaining all monitor points within licensed tolerances (with no change to the licensed 0.049 kW nighttime operation). EVR must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's

¹ WLLN is licensed for DA operation on 1370 kHz with 5 kW daytime pattern, using the same pattern at night with a reduced power of 0.049 kW.

exposure guidelines. *See* 47 CFR §1.1310. EVR must file an electronic Restoration of Licensed Operation notice in LMS to certify the date the station resumed licensed operations per BL-19841001AR with negligible changes (to verify a 302-AM direct measurement of power filing is not needed). Otherwise an acceptable minor change construction permit application may be required to make other permanent changes to start the process of moving forward.

This authority expires on **July 25, 2024.**²

Sincerely,

A handwritten signature in blue ink, appearing to read "Joe Szczesny", with a large, stylized initial "J" and a long horizontal stroke extending to the right.

Joseph Szczesny, Engineer
Audio Division
Media Bureau

²Periods of operation pursuant to this STA shall be recorded in the station's records (see 47 CFR § 73.1820). The records shall include start/stop dates and times of such operation. These log entries must be maintained for a minimum of two years as specified in 47 CFR § 73.1840(a), unless a longer retention period is requested by the staff. Periods of operation may be subject to independent verification that they in fact occurred.
