Dear Licensee:

This refers to the above-mentioned application dated June 11, 2018, requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that beginning May 30, 2018 it has become technically impossible to operate KLBY at full authorized power. You mentioned that the station is currently operating with approximately 50 percent of authorized power (312 kW ERP) due to equipment failure.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on December 13, 2018.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink, reading "Kevin R. Harding", is positioned above the printed name and title.
