Fac Id: 35584

Dear Licensee:

This refers to the above-mentioned application dated October 5, 2018, requesting authority to continue to operate at variance. You indicate that the proposed STA system will be employed for use as an interim antenna to facilitate the repack of the KSAX facility from its licensed channel to Channel 24, for which it holds a construction permit. The KSAX STA facility will operate on Channel 42 using an antenna to be side-mounted on the KSAX main facility tower at a height of 315.5 m above ground level. You mentioned that the proposed STA antenna system has been designed such that there will be no extension of the predicted noise-limited service contour of the STA facility beyond that of the main facility. There will be no change in the overall height of the existing structure.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1615 and 73.1635 of the Commission's Rules. This authorization expires on **April 18, 2019**.

Sincerely,

A handwritten signature in blue ink, reading "Kevin R. Harding", is positioned above the typed name and title.
