Dear Licensee:

This refers to the above-mentioned application dated July 25, 2018, requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that At present, KMBH(TV) is operating at approximately 30% of its authorized power. You mentioned that KMBH was forced to suspend operation on January 25, 2018 after a transmitter failure that was caused by local construction of a new power substation. MBTV has been working to restore the station to full power operation and has ordered the necessary replacement parts for the transmitter but is awaiting delivery of additional replacement parts.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on January 26, 2019.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
