Dear Licensee:

This refers to your request dated September 13, 2018, for special temporary authority (STA) to operate at reduced effective radiated power (ERP). You point out that the reason for this STA is the main transmitter has for the past several weeks operated at reduced power. You mentioned that the manufacturer of that transmitter is no longer in business. The main transmitter operation has several days ago sustained another component failure rendering the transmitter inoperable. Successful efforts having been made to restore the operation of the main transmitter to operate with a transmitter output of 54%.

In light of the above, special temporary authority **IS GRANTED** pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **March 17, 2019**.

Please be advised that any request for extension of this authority must include detailed reasons for extension and a description of steps being taken to return the station to a fully operational facility.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
