Fac Id: 26994

Dear Licensee:

This refers to the above-mentioned application dated September 25, 2018, requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that due to a fire at its tower site at approximately 10:30pm Saturday September 1, Heritage requests to operate at reduced power. The station was able to resume operations with a temporary transmitter with output of 180 watts TPO. You mentioned that on or about September 16, Heritage was able to install an interim transmitter with a TPO of 2250kW.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **March 25, 2019**.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
