Re: WFLD
0000068503
Chicago, IL
Fac Id: 22211

Dear Licensee:

This refers to the above-mentioned application dated March 13, requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that WFLD will operate an interim facility on channel 31 at reduced ERP with a directional antenna side mounted at a height of 61 meters above ground level on the existing/authorized tower. There will be no change in the overall structure height of the existing tower. You mentioned that the proposed STA antenna system has been designed such that there will be no extension of the predicted noise-limited service contour of the STA facility beyond that of the main facility

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **September 20, 2019**.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
