Gentlemen:

This refers to your attorney's letter dated March 27, 2019 for further extension of your authority to remain silent. You indicate due to extreme winter weather restricting access to the tower site for the main facilities, the station has not resumed operation for the new channel. You mentioned that as warmer weather approaches, the Licensee hopes to be able to build out the CP and resume operations this summer.

In light of the above, special temporary authority IS GRANTED pursuant to Sections 73.1740 of the Commission's Rules. This authorization expires on **July 27, 2019**.

During this period of discontinued operation, you are directed to pay strict attention to Section 73.1740 (a) (4). That is, you must continue to adhere to the requirements in your station license pertaining to the lighting of antenna structures.

Once again, we wish to point out that any request for further extension of this authority must include your reasons for extension and a detailed description of steps being taken to return the station to a fully operational facility.

Sincerely,

Kevin R. Harding
Associate Chief
