Dear Licensee:

This is in response to the above application filed on May 20, 2019 requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that this engineering STA requests authorization to temporarily operate the KVUE Channel 33 non-repack facility at reduced parameters while the licensed KEYE-TV full-service facility transitions from licensed pre-auction Channel 43 to authorized post-auction Channel 34. You mentioned that the KVUE station must temporarily operate using an interim facility during the KEYE-TV buildout process or else it would have to go off the air for an extended period of time.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **December 3, 2019**.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
