Re: KXAN-TV  
0000074283  
Austin, TX  
Fac Id: 35920

Dear Licensee:

This is in response to the above application filed on June 3, 2019, for special temporary authority (STA) to operate at variance. You indicate the KNVA repack facility is co-located with the KXAN-TV facility. Accordingly, the KXAN-TV facility must shut down its main facility when the KNVA tower mods and antenna replacement work is conducted. Therefore, in order for the KXAN-TV facility to remain on the air, it must operate on an interim antenna.

You mentioned that this Engineering STA application requests authorization for the KXAN-TV non-repack facility to temporarily operate with alternate parameters using a side-mounted directional interim antenna (TFU-24WB-R C160) while the new post-transition main antenna is installed for the KNVA repack facility. You mentioned the proposed KXAN-TV temporary facility will completely encompass its community of license and will not exceed its licensed noise limited contour in any azimuthal direction.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **September 11, 2019**.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
