Dear Licensee:

This is in response to the above application filed on June 12, 2019, for special temporary authority (STA) to operate at variance. You indicate that the proposed STA is needed due to a malfunction in the KAUT-TV main antenna system. It was recently discovered following the KAUT-TV Phase 2 construction that the KAUT-TV main antenna was malfunctioning. You mentioned that the KAUT-TV STA facility will operate on Channel 19 using a broadband master UHF antenna, which is top-mounted on an existing tower. You also mentioned that the proposed STA antenna system has been designed such that there will be no extension of the predicted noise-limited service contour of the STA facility beyond that of the licensed main facility.

In light of the above, special temporary authority is **GRANTED** pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **December 18, 2019**.

Sincerely,
