In Re: Special Temporary Authority  
For Station KMYA-DT  
Camden, Arkansas  
Application File No. 0000151115  
Fac Id: 86534

Dear Licensee:

This is in reference to your request seeking an extension of the engineering special temporary authority<sup>1</sup> to operate TV station KMYA-DT, Camden, AR, using interim facilities with reduced parameters due to continued operational constraints related to the construction of the station's main post-transition facility.

After a thorough review of your technical specifications, we are persuaded that no interference is likely to occur from the proposed operation. We therefore conclude that the public interest would be served by the grant of this request. If problems do arise, we expect them to be solved expeditiously and the Bureau reserves the right to require the termination of the operation.

With respect to radio frequency radiation (RFR), we expect compliance with Section 1.1307(b) of the Commission's Rules to be achieved.

In light of the above, special temporary authority **IS GRANTED** pursuant to Section 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **August 31, 2021**.

Sincerely,

/s/

Kevin R. Harding  
Deputy Chief, Video Division  
Media Bureau
