In Re: Special Temporary Authority
For Station KNBC
Los Angeles, CA
Application File No. 0000186845
Fac Id: 47906

Dear Licensee:

This is in reference to your March 18, 2022 request seeking extension of engineering special temporary authority¹ (STA) to operate TV station KNBC Los Angeles, CA, at reduce power until the station's main antenna can be replaced.

After a thorough review of your technical specifications, we are persuaded that no interference is likely to occur from the proposed operation. We therefore conclude that the public interest would be served by the grant of this request. If problems do arise, we expect them to be solved expeditiously and the Bureau reserves the right to require the termination of the operation.

With respect to radio frequency radiation (RFR), we expect compliance with Section 1.1307(b) of the Commission's Rules to be achieved.

In light of the above, special temporary authority IS GRANTED pursuant to Section 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **September 23, 2022**.

Sincerely,

/s/
