Special Operating Conditions or Restrictions

The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.

- Pursuant to 47 CFR Sections 73.7002(c) and 73.7005(b) the permittee/licensee is required to construct and operate for a period of four years of on-air operations technical facilities substantially as proposed and shall not downgrade service to the area on which the preference was based.
- Program tests for the new station serving Fairmont, Minnesota (Facility ID No. 768293) will not commence
 with the facilities authorized herein until Fairmont Area Catholic Radio ceases operation of, and divests all
 interest in Low Power FM Station KYEJ-LP, Fairmont, Minnesota (Facility ID No. 195715). Furthermore, a
 license will not be granted for this station with the facilities authorized herein until Fairmont Area Catholic
 Radio divests all interest in KYEJ-LP. A certification including the date that KYEJ-LP's facility was cancelled or
 the date the assignment was consummated must be included as an attachment to the Schedule 302-FM
 application for license to cover this construction permit.
- BEFORE PROGRAM TESTS COMMENCE, sufficient measurements must be made to establish that the
 operation authorized in this construction permit is in compliance with the spurious emissions requirements of
 47 C.F.R. Sections 73.317(b) through 73.317(d). All measurements must be made with all stations
 simultaneously utilizing the shared antenna. These measurements must be submitted to the Commission with
 the FCC application for license.

Subject to the provisions of the Communications Act of 1934, as amended, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this permit, the permittee is hereby authorized to construct the radio transmitting apparatus herein described. Installation and adjustment of equipment not specifically set forth herein shall be in accordance with representations contained in the permittee's application for construction permit except for such modifications as are presently permitted, without application, by the Commission's Rules(See Section 83.875).

Pursuant to Section 73.3598, this Construction Permit will be subject to automatic forfeiture unless construction is complete and application for license is filed prior to expiration.

Equipment and program tests shall be conducted only pursuant to Sections 73.1610 and 73.1620 of the Commission's Rules.
