WPAT Licensing, Inc. 7007 NW 77<sup>th</sup> Avenue Miami, FL 33166

Re: WPAT-FM, Paterson, New Jersey

WPAT Licensing, Inc.

Facility Identification Number: 51663 Special Temporary Authorization

0000198450

Dear Licensee:

This is in reference to the request filed August 26, 2022, on behalf of WPAT Licensing, Inc. (WLI). WLI requests a further extension of the special temporary authority (STA) originally granted on March 7, 2003, and modified on April 8, 2004, to operate Station WPAT-FM with temporary facilities.<sup>1</sup>

In support of the request, WLI has stated that, following the destruction of the main WPAT-FM facilities on September 11, 2001, the station had been operating from Four Times Square, but was forced to relocate to the Empire State Building ("ESB"). The licensee previously reported that it had signed an agreement for a permanent site on the Empire State Building and has filed an application for permanent facilities. (Construction permit application 0000143151 was granted March 4, 2022.)

Our review indicates that the licensee has been prevented from restoring licensed operation due to causes beyond its control. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WPAT-FM may continue to operate with the following facilities:

Geographic coordinates: 40° 44′ 54 ′ NL, 73° 59′ 10″ WL (NAD 1927)

Channel 226 (93.1 MHz)

Effective radiated power: not to exceed 4.0 kilowatts (H&V)

Antenna height above average terrain: 415 meters

<sup>1</sup> Station WPAT-FM is licensed for operation on Channel 226B (93.1 MHz) with effective radiated power (ERP) of 5.4 kilowatts (H&V), and antenna height above average terrain (HAAT) of 433 meters.

WLI must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on April 3, 2023.

Sincerely,

Dale Bickel Senior Engineer Audio Division

De Bick
