Federal Communications Commission

FM BROADCAST STATION CONSTRUCTION PERMIT

Permittee

Premier Broadcasters, Inc. 1133 Kresky Avenue Centralia, WA, 98531

Call Sign	Facility ID
KVNW	189494

File Number 0000201927	This Permit Modifies License File No. BNPH-20110630AHJ	
Filing Date	Grant Date	Expiration Date
10/04/2022	12/21/2022	03/04/2025

Community of License	Frequency (MHz)	Station Channel	Station Class
City: NAPAVINE State: WA	92.9	225	C3
Hours of Operation: Unlimited	E A OS	SSIN A SIN	
Facility Type: Commercial	CALLA	科	

Transmitter Certified for Compliance. See Sections 73.1660, 73.1665 and 73.1670 of the Commission's Rules.	Transmitter Output Power As required to achieve authorized ERP.
Antenna Type Non-Directional	Antenna Coordinates (NAD 83) Latitude 46-32-36.3 N Longitude 123-01-10.4 W
Major Lobe Directions	

	Horizontally Polarized Antenna	Vertically Polarized Antenna
Effective Radiated Power in the Horizontal Plane (kW)	4	4

Not Applicable

Height of Radiation Center Above Ground (meters)	31	31
Height of Radiation Center Above Mean Sea Level (meters)	410	410
Height of Radiation Center Above Average Terrain (meters)	256	256

Antenna Structure Registration Number	Overall Height of Antenna Structure Above Ground (meters)
Not Required	34

Obstruction Marking and Lighting Specifications for Antenna Structure

It is expressly understood that the issuance of these specifications is in no way to be considered as precluding additional or modified marking or lighting as may hereafter be required under the provisions of Section 303 (q) of the Communications Act of 1934, as amended.

Special Operating Conditions or Restrictions

The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.

- BEFORE PROGRAM TESTS COMMENCE, sufficient measurements shall be made to establish that the
 operation authorized in this construction permit is in compliance with the spurious emissions requirements of
 47 C.F.R. Sections 73.317(b) through 73.317(d). All measurements must be made with all stations
 simultaneously utilizing the shared antenna. These measurements shall be submitted to the Commission
 along with the application for FM broadcast license.
- Permittee has specified the use of a EPA Type 3 (opposed "U" dipole), 2-sectioned, half wavelength-spaced antenna to demonstrate compliance with the FCC radiofrequency electromagnetic field exposure guidelines. If any other type or size of antenna is to be used with the facilities authorized herein, THE AUTOMATIC PROGRAM TEST PROVISIONS OF 47 C.F.R. SECTION 73.1620 WILL NOT APPLY. In this case, a FORMAL REQUEST FOR PROGRAM TEST AUTHORITY must be filed in conjunction with the application for FM broadcast license BEFORE program tests will be authorized. The request must include a revised RF field showing to demonstrate continued compliance with the FCC guidelines.

Subject to the provisions of the Communications Act of 1934, as amended, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this permit, the permittee is hereby authorized to construct the radio transmitting apparatus herein described. Installation and adjustment of equipment not specifically set forth herein shall be in accordance with representations contained in the permittee's application for construction permit except for such modifications as are presently permitted, without application, by the Commission's Rules(See Section 83.875).

Pursuant to Section 73.3598, this Construction Permit will be subject to automatic forfeiture unless construction is complete and application for license is filed prior to expiration.

Equipment and program tests shall be conducted only pursuant to Sections 73.1610 and 73.1620 of the Commission's Rules.
