Fac. ID No.: 25522  
Special Temporary Authority (STA)  
LMS File No.: 0000225812

Dear Mr. Edwards:

This is in reference to the request filed on November 13, 2023. DEM requests an extension of the STA granted on March 23, 2023, to continue operating with an Isotron ISO-AMB-400 antenna from an alternate site to allow time to file the required 302-AM license application to cover BP-20220622AAB.<sup>1</sup> In support of the request, DEM stated that additional time will be required to complete all construction and testing.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and DEM may continue to operate with the following facilities:

Geographic coordinates	41° 23' 58" N, 81° 39' 37" W (NAD 1927)
Frequency	1000 kHz
Hours of operation	Daytime only
Operating power	0.1 kW (Daytime)
Antenna type	ISO-AMB-400 mounted to a pole on rooftop
Antenna vertical height	27 feet (10 electrical degrees)
Antenna Efficiency	255.9 mV/m/kW at 1 km

---

<sup>1</sup> WCCD(AM) is licensed for DA daytime-only operation on 1000 kHz with 0.5 kW, and BP-20220622AAB authorizes a new 0.2 kW daytime DA pattern at the existing WHK transmitter site.

DEM must reduce power or cease operation if complaints of interference are received, and must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **May 19, 2024**.<sup>2</sup>

Sincerely,

A handwritten signature in blue ink, appearing to read "Joe Szczesny". The signature is fluid and cursive, with a large loop at the beginning and a long, sweeping tail.

<sup>2</sup>Periods of operation pursuant to this STA shall be recorded in the station's records (see 47 CFR § 73.1820). The records shall include start/stop dates and times of such operation. These log entries must be maintained for a minimum of two years as specified in 47 CFR § 73.1840(a), unless a longer retention period is requested by the staff. Periods of operation may be subject to independent verification that they in fact occurred.
