Re: The Regents of the University of Colorado (RUC)  
KVCU(AM), Boulder, CO  
Fac. ID No.: 48965  
Special Temporary Authority (STA)  
LMS File No.: 0000240683

Dear Mr. Scace:

This is in reference to the request filed on March 11, 2024. RUC requests an extension of the STA granted on September 29, 2023, to continue operating during daytime and critical hours with reduced power to allow time to install a new transmitter due to severe fire damage to the old transmitter last year.<sup>1</sup> In support of the request, RUC has requested additional time to operate with temporary parameters because it plans to install the new Nautel NX10 transmitter after the scheduled June 2024 delivery date.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA is GRANTED, and RUC may continue to operate with a reduced daytime and critical hours power level of 1 kW, with no change to the licensed nighttime 0.11 kW operation. RUC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR §1.1310. RUC must file an electronic Restoration of Licensed Operation notice in LMS within a few days of resuming licensed

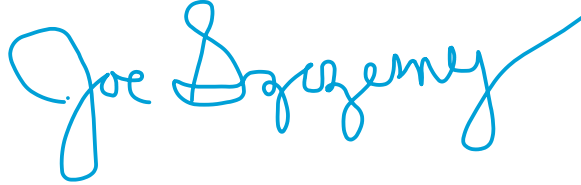

---

<sup>1</sup> KVCU(AM) is licensed for ND operation on 1190 kHz with 6.8 kW (daytime), 5 kW (critical hours), and 0.11 kW (night).

operations to certify the date the station was able to resume licensed operations per the last license (BL-20001211AER) with negligible changes to all parameters.

This authority expires on **September 26, 2024.** <sup>2</sup>

Sincerely,

A handwritten signature in blue ink that reads "Joe Szczesny". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Joseph Szczesny, Engineer  
Audio Division  
Media Bureau

<sup>2</sup>Periods of operation pursuant to this STA shall be recorded in the station's records (see 47 CFR § 73.1820). The records shall include start/stop dates and times of such operation. These log entries must be maintained for a minimum of two years as specified in 47 CFR § 73.1840(a), unless a longer retention period is requested by the staff. Periods of operation may be subject to independent verification that they in fact occurred.
