Special operating conditions or restrictions:

- 1 The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.
- 2 Pursuant to 47 CFR Section 73.7005(a) the permittee/licensee shall be subject to a holding period. From the grant of the construction permit and continuing until the facility has achieved four years of on-air operations, the permittee/licensee proposing to assign or transfer the construction permit/license to another party will be required to demonstrate the following two factors: that the proposed buyer would qualify for at least the same number of points as the assignor or transferor originally received; and that consideration received and/or promised does not exceed the assignor's or transferor's legitimate and prudent expenses as defined therein.

Special operating conditions or restrictions:

- 3 Pursuant to 47 CFR Section 73.202(a)(1)(ii) and its required levels of first and second NCE service, the permittee/licensee is required to construct and operate with substantially the same technical facilities under which the allotment qualified for reservation solely for noncommercial educational use.
- 4 LBN, Inc. requests waiver of 47. C.F.R. Section 73.1125 to operate the proposed facility at LBN's headquarters located at 2409 South Black River Street, Sparta, Wisconsin. Based upon the specific representations contained therein, the waiver request IS GRANTED. Applicant shall abide by each representation proffered in the waiver request.
