- 2 The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.

Special operating conditions or restrictions:

- 3 THE AUTOMATIC PROGRAM TEST PROVISIONS OF 47 C.F.R. SECTION 73.1620 DO NOT APPLY IN THIS CASE. The fence must be of a type which will preclude casual or inadvertent access and must include warning signs at appropriate intervals which describe the nature of the hazard.

Documentation demonstrating compliance with the special operating condition may be submitted in advance of the filing of FCC Form 302-FM, application for license. The Commission's staff will review it for compliance and respond by letter stating whether automatic program test authority has been reinstated.
