Media Bureau

Facility ID: 4276

Call Sign: KSIV-FM

Permit File Number: BMPED-19951004IF

Grant Date: February 08, 1996

This permit expires 3:00 a.m. local time, August 08, 1996.

This permit modifies Permit No. BPED-780726AA
as last extended by Permit No. BMPED-940202JA.
.
This construction permit incorporates the grant of extension
application BPED-940202JA on February 8, 1996. No separate
authorization will be issued for BMPED-940202JA.

Subject to the provisions of the Communications Act of 1934, as amended,
subsequent acts and treaties, and all regulations heretofore or hereafter
made by this Commission, and further subject to the conditions set forth
in this permit, the permittee is hereby authorized to construct the radio
transmitting apparatus herein described. Installation and adjustment of
equipment not specifically set forth herein shall be in accordance with
representations contained in the permittee's application for construction
permit except for such modifications as are presently permitted, without
application, by the Commission's Rules.

Commission rules which became effective on February 16, 1999, have a
bearing on this construction permit. See Report & Order, Streamlining of
Mass Media Applications, MM Docket No. 98-43, 13 FCC RCD 23056, Para.
77-90 (November 25, 1998); 63 Fed. Reg. 70039 (December 18, 1998).
Pursuant to these rules, this construction permit will be subject to
automatic forfeiture unless construction is complete and an application
for license to cover is filed prior to expiration. See Section 73.3598.

Equipment and program tests shall be conducted only pursuant to Sections
73.1610 and 73.1620 of the Commission's Rules.

Callsign: KSIV-FM   Permit No.: BMPED-19951004IF

Name of Permittee: COMMUNITY BROADCASTING, INC.

Station Location: MO-ST. LOUIS

Frequency (MHz): 91.5

Channel: 218

Class: C1

Hours of Operation: Unlimited

Transmitter: Type Accepted. See Sections 73.1660, 73.1665 and 73.1670 of the Commission's Rules.

Transmitter output power: As required to achieve authorized ERP.

Antenna type: Non-Directional

Antenna Coordinates: North Latitude: 38 deg   34 min   24 sec

                     West Longitude: 90 deg   19 min   30 sec

	Horizontally Polarized Antenna	Vertically Polarized Antenna
Effective radiated power in the Horizontal Plane (kW):	85	85
Height of radiation center above ground (Meters):	325	325
Height of radiation center above mean sea level (Meters):	466	466
Height of radiation center above average terrain (Meters):	313	313

Antenna structure registration number: Not Required

Overall height of antenna structure above ground: 338 Meters

Obstruction marking and lighting specifications for antenna structure:

It is to be expressly understood that the issuance of these specifications is in no way to be considered as precluding additional or modified marking or lighting as may hereafter be required under the provisions of Section 303(q) of the Communications Act of 1934, as amended.

None Required

Special operating conditions or restrictions:

1   BEFORE PROGRAM TESTS COMMENCE, sufficient measurements shall be made
     to establish that the operation authorized in this construction
     permit is in compliance with the spurious emissions requirements of
     47 C.F.R.Sections 73.317(b) through 73.317(d). All measurements must
     be made with all stations simultaneously utilizing the shared
     antenna. These measurements shall be submitted to the Commission
     along with the FCC Form 302-FM application for license.   .

Special operating conditions or restrictions:

2   The permittee/licensee in coordination with other users of the site
     must reduce power or cease operation as necessary to protect persons
     having access to the site, tower or antenna from radiofrequency
     electromagnetic fields in excess of FCC guidelines.

                    *** END OF AUTHORIZATION   ***
