Call Sign: K253BO

License File Number: BLFT-20130819AFB

Grant Date: September 11, 2013

This license expires 3:00 a.m.
local time, June 01, 2020.

This license covers permit no.: BMPFT-20130701ABZ

Subject to the provisions of the Communications Act of 1934, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this license, the licensee is hereby authorized to use and operate the radio transmitting apparatus herein described.

This license is issued on the licensee's representation that the statements contained in licensee's application are true and that the undertakings therein contained so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the term of this license, render such broadcasting service as will serve the public interest, convenience, or necessity to the full extent of the privileges herein conferred.

This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequency designated in the license beyond the term hereof, nor in any other manner than authorized herein. Neither the license nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This license is subject to the right of use or control by the Government of the United States conferred by Section 606 of the Communications Act of 1934.

Callsign: K253BO

License No.: BLFT-20130819AFB

Overall height of antenna structure above ground: 11 Meters

Obstruction marking and lighting specifications for antenna structure:

It is to be expressly understood that the issuance of these specifications is in no way to be considered as precluding additional or modified marking or lighting as may hereafter be required under the provisions of Section 303(q) of the Communications Act of 1934, as amended.

None Required

Special operating conditions or restrictions:

- 1 The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.

- 2 This authorization is subject to modification or cancellation as a result of applications submitted during the October, 2013 LPFM filing window. See DA 13-1385. Any construction is at the permittee's sole risk. LPFM construction permits granted from the October, 2013 window filings may require the permittee to change channels, propose other facility modifications and/or terminate operations with the facilities specified herein. A license will not be granted to cover this construction permit until after the close of the October, 2013 filing window.

*** END OF AUTHORIZATION ***
