Facility Id: 20983

Call Sign: WLZL

License File Number: BLH-20151218AEF

---

Grant Date: January 06, 2016

This license expires 3:00 a.m.  
local time, October 01, 2019.

This license covers permit no.: BPH-20121204AEJ  
as modified by permit no.: BMPH-20131022ALD

Subject to the provisions of the Communications Act of 1934, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this license, the licensee is hereby authorized to use and operate the radio transmitting apparatus herein described.

This license is issued on the licensee's representation that the statements contained in licensee's application are true and that the undertakings therein contained so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the term of this license, render such broadcasting service as will serve the public interest, convenience, or necessity to the full extent of the privileges herein conferred.

This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequency designated in the license beyond the term hereof, nor in any other manner than authorized herein. Neither the license nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This license is subject to the right of use or control by the Government of the United States conferred by Section 606 of the Communications Act of 1934.

Name of Licensee: AUDACY LICENSE, LLC

Station Location: MD-COLLEGE PARK

Frequency (MHz): 107.9

Channel: 300

Class: B

Hours of Operation: Unlimited

Transmitter: Type Accepted. See Sections 73.1660, 73.1665 and 73.1670 of the Commission's Rules.

Transmitter output power: 9.6 kW

Antenna type: Directional

Description: RCA BFC-6D (CUSTOM DA), six sections

Antenna Coordinates: North Latitude: 38 deg 59 min 46 sec  
West Longitude: 76 deg 39 min 26 sec

|  | Horizontally<br>Polarized<br>Antenna | Vertically<br>Polarized<br>Antenna |
|--|--------------------------------------|------------------------------------|
| Effective radiated power in the Horizontal Plane (kW):     | 49                                   | 49                                 |
| Height of radiation center above ground (Meters):          | 142                                  | 142                                |
| Height of radiation center above mean sea level (Meters):  | 180                                  | 180                                |
| Height of radiation center above average terrain (Meters): | 151                                  | 151                                |

Antenna structure registration number: 1036204

Overall height of antenna structure above ground (including obstruction lighting if any) see the registration for this antenna structure.

Special operating conditions or restrictions:

- 1 Grant of this license application is conditioned on continuous operations of the licensed facility for the twelve-month period following grant. Failure to do so will result in the rescission of this grant, dismissal of the license application and the forfeiture of the associated construction permit pursuant to 47 C.F.R. § 73.3598(c) unless licensee rebuts presumption that authorized facilities were temporarily constructed.
- 2 The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.

Special operating conditions or restrictions:

- 3 The relative field strength of neither the measured horizontally nor vertically polarized radiation component shall exceed at any azimuth the value indicated on the composite radiation pattern authorized by construction permit BMPH-20131022ALD.

A relative field strength of 1.0 on the composite radiation pattern herein authorized corresponds to the following effective radiated power:

49.0 kilowatts

Principal minima and their associated field strength limits:

310 - 333 degrees True: 19.0 kilowatts

- 4 The licensee has demonstrated compliance with the FCC radiofrequency electromagnetic field exposure guidelines based upon the usage of the antenna specified herein. If the licensee makes any changes in facilities via modification of license application in accordance with 47 CFR section 73.1690(c), the subsequent Form 302-FM, application for license, must include a revised RF field showing to demonstrate continued compliance with the FCC guidelines.

\*\*\* END OF AUTHORIZATION \*\*\*
