

United States of America
FEDERAL COMMUNICATIONS COMMISSION
FM BROADCAST STATION LICENSE

Authorizing Official:

Official Mailing Address:

ANNISTON SEVENTH-DAY ADVENTIST CHURCH
P.O. BOX 1774
ANNISTON AL 36202

Arthur E. Doak
Senior Engineer
Audio Division
Media Bureau

Facility Id: 184996

Call Sign: WRHP

License File Number: BLED-20180508ACQ

Grant Date: June 13, 2018

This license expires 3:00 a.m.
local time, April 01, 2020.

This license covers Permit No.: BNPED-20100226ABT
as modified by Permit No.: BMPED-20170419AIO

Subject to the provisions of the Communications Act of 1934, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this license, the licensee is hereby authorized to use and operate the radio transmitting apparatus herein described.

This license is issued on the licensee's representation that the statements contained in licensee's application are true and that the undertakings therein contained so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the term of this license, render such broadcasting service as will serve the public interest, convenience, or necessity to the full extent of the privileges herein conferred.

This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequency designated in the license beyond the term hereof, nor in any other manner than authorized herein. Neither the license nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This license is subject to the right of use or control by the Government of the United States conferred by Section 606 of the Communications Act of 1934.

Name of Licensee: ANNISTON SEVENTH-DAY ADVENTIST CHURCH

Station Location: AL-ANNISTON

Frequency (MHz): 100.1

Channel: 261

Class: C3

Hours of Operation: Unlimited

Transmitter: Type Accepted. See Sections 73.1660, 73.1665 and 73.1670 of the Commission's Rules.

Transmitter output power: 2.95 kW

Antenna type: Directional

Description: PSI PSIFM-3E-DA, 3 sections, 1 wavelength spaced

Antenna Coordinates: North Latitude: 33 deg 40 min 53 sec

West Longitude: 85 deg 48 min 57 sec

	Horizontally Polarized Antenna	Vertically Polarized Antenna
Effective radiated power in the Horizontal Plane (kW):	5.4	5.4
Height of radiation center above ground (Meters):	20	20
Height of radiation center above mean sea level (Meters):	473	473
Height of radiation center above average terrain (Meters):	216	216

Antenna structure registration number: 1026766

Overall height of antenna structure above ground (including obstruction lighting if any) see the registration for this antenna structure.

Special operating conditions or restrictions:

- 1 Pursuant to 47 CFR Section 73.7005(a) the permittee/licensee shall be subject to a holding period. From the grant of the construction permit and continuing until the facility has achieved four years of on-air operations, the permittee/licensee proposing to assign or transfer the construction permit/license to another party will be required to demonstrate the following two factors: that the proposed buyer would qualify for at least the same number of points as the assignor or transferor originally received; and that consideration received and/or promised does not exceed the assignor's or transferor's legitimate and prudent expenses as defined therein.
- 2 The channel authorized herein has been reserved solely for noncommercial educational use pursuant to 47 C.F.R. 73.202(a)(1)(ii). The technical facilities specified in this authorization meet that Rule's required levels of first and second noncommercial educational service. Accordingly, the permittee/licensee must construct and operate with substantially the same technical facilities proposed.

Special operating conditions or restrictions:

- 3 Grant of this license application is conditioned on the continuous operation of the licensed facility for the twelve-month period following grant. The failure of the facility to so operate will result in the rescission of this grant, dismissal of the license application and the forfeiture of the associated construction permit pursuant to 47 C.F.R. § 73.3598(e) unless the licensee rebuts presumption that the authorized facilities were temporarily constructed.
- 4 ***** This is a Section 73.215 contour protection grant *****
***** as requested by this applicant *****
- 5 The permittee/licensee, in coordination with other users of the site, must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of the FCC guidelines.
- 6 The licensee has demonstrated compliance with the FCC radiofrequency electromagnetic field exposure guidelines based on the use of the antenna specified herein. If the licensee makes any changes in the facilities via a modification of license application in accordance with 47 C.F.R. Section 73.1690(c), the subsequent FCC Form 302-FM, application for license, must include a revised RF field showing to demonstrate continued compliance with the FCC guidelines.
- 7 The relative field strength of neither the measured horizontally nor vertically polarized radiation component shall exceed at any azimuth the value indicated on the composite radiation pattern authorized by Construction Permit BMPED-20170419AIO.

A relative field strength of 1.0 on the composite radiation pattern authorized by Construction Permit BMPED-20170419AIO corresponds to the following effective radiated power:

5.4 kilowatts

Principal minima and their associated field strength limits:

180 to 190 degrees True (clockwise): 3.2 kilowatts

*** END OF AUTHORIZATION ***
