

United States of America
FEDERAL COMMUNICATIONS COMMISSION
FM BROADCAST TRANSLATOR/BOOSTER STATION
CONSTRUCTION PERMIT

Authorizing Official:

Official Mailing Address:

MCCLATCHEY BROADCASTING, INC.
6900 COMMERCE AVE
EL PASO TX 79915

James D. Bradshaw
Deputy Chief
Audio Division
Media Bureau

Facility Id: 156952

Call Sign: K240ER

Permit File Number: BMPFT-20161011AFP

Grant Date: November 17, 2016

The authority granted herein has no effect on the expiration date of the underlying construction permit.

This permit modifies permit no.: BNPFT-20130816ADQ

Commission rules which became effective on February 16, 1999, have a bearing on this construction permit. See Report & Order, Streamlining of Mass Media Applications, MM Docket No. 98-43, 13 FCC RCD 23056, Para. 77-90 (November 25, 1998); 63 Fed. Reg. 70039 (December 18, 1998). Pursuant to these rules, this construction permit will be subject to automatic forfeiture unless construction is complete and an application for license to cover is filed prior to expiration. See Section 73.3598.

Name of Permittee: MCCLATCHEY BROADCASTING, INC.

Principal community to be served: TX-EL PASO

Primary Station: KELP (AM) , Frequency 1590 kHz, EL PASO, TX

Via: Microwave

Frequency (MHz): 95.9

Channel: 240

Hours of Operation: Unlimited

Antenna Coordinates: North Latitude: 31 deg 48 min 57 sec
 West Longitude: 106 deg 29 min 18 sec

Transmitter: Type Accepted. See Sections 73.1660, 74.1250 of the Commission's Rules

Antenna type: (directional or non-directional): Directional

Major lobe directions 0
 (degrees true):

	Horizontally Polarized Antenna:	Vertically Polarized Antenna:
Effective radiated power in the Horizontal Plane (kw):	0.01	0.01
Height of radiation center above ground (Meters):	25	25
Height of radiation center above mean sea level (Meters):	1768	1768

Antenna structure registration number: 1216164

Overall height of antenna structure above ground (including obstruction lighting if any) see the registration for this antenna structure.

Special operating conditions or restrictions:

- 1 Program tests for K240ER will not commence with the facilities authorized by this construction permit until K236CD (Facility ID 156909) commences operations with the facilities authorized in construction permit BPFT-20130304ACO, and until that translator changes its primary station to KELP-FM. A license will not be granted to K240ER to cover the facilities authorized by this construction permit until a license is granted to K236CD with the facilities authorized in construction permit BPFT-20130304ACO.
- 2 Pursuant to Revitalization of the AM Radio Service, First Report and Order, 30 FCC Rcd 12145, 12153 para. 16 (2015), the permittee/licensee and any successor in interest (licensee) shall be subject to the following restrictions. From the grant of the construction permit and continuing until the facility has achieved four years of on-air operations rebroadcasting the primary AM station identified on this authorization, the licensee may NOT change such primary station being rebroadcast by this translator, nor may it rebroadcast another station when the primary station identified on this authorization is silent. Periods of station silence shall not count toward the fulfillment of this four-year requirement. During this same four-year period the licensee may not assign or transfer the construction permit/license to another party, unless it is to the licensee of the AM station identified on this authorization or unless such assignment or transfer provides for the continuing right of the primary station to rebroadcast on the translator. Minor modifications of this authorization are permitted, provided that the translator will continue to rebroadcast the AM station for which the modification was granted.

Special operating conditions or restrictions:

- 3 Prior to commencing program test operations, FM Translator or FM Booster permittee must have on file at the Commission, FCC Form 350, Application for an FM Translator or FM Booster Station License, pursuant to 47 C.F.R. Section 74.14.

- 4 The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.

*** END OF AUTHORIZATION ***
