Special operating conditions or restrictions:

- 1 Further modifications of FM Station KVKL(FM), Las Vegas, Nevada (Facility ID No. 88719) will not be construed as a "per se" modification of KUNV's construction permit (BPED-20130208ABR). (See Educational Information Corporation, 6 FCC Rcd 2207 (1991)).
- 2 The permittee/licensee, in coordination with other users of the site, must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of the FCC guidelines.
- 3 Warning signs, which describe the radiofrequency electromagnetic field hazard, must be posted at appropriate intervals. Access must be restricted to prevent the exposure of humans to RF emissions in excess of the FCC guidelines (OET Bulletin 65, Edition 97-01, released August 1997). Documentation of compliance with this special operating condition must be submitted with the FCC Form 302, application for license.

Special operating conditions or restrictions:

- 4 The permittee has specified the use of an ERI/Jampro rototiller (EPA Type 3), 3 section antenna to demonstrate compliance with the FCC radiofrequency electromagnetic field exposure guidelines. If any other type or size of antenna is to be used with the facilities authorized herein, THE AUTOMATIC PROGRAM TEST PROVISIONS OF 47 C.F.R. SECTION 73.1620 WILL NOT APPLY. In this case, a FORMAL REQUEST FOR PROGRAM TEST AUTHORITY must be filed with the FCC Form 302-FM, application for license, BEFORE program tests will be authorized. This request must include a revised RF field showing to demonstrate continued compliance with the FCC guidelines.
