## Special operating conditions or restrictions:

- 2 Permittee has specified use of a Jampro, JBCP-6 antenna to demonstrate compliance with the ANSI radiofrequency radiation limit. - 3 Operation with the facilities specified herein is subject to modification, suspension, or termination without right to hearing, if found by the Commission to be necessary in order to conform to the Final Acts of the ITU Radio Regulations governing FM broadcasting and to bilateral and other multilateral agreements between the United States and other countries.
