Special operating conditions or restrictions:

- 1 The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.
- 2 BEFORE PROGRAM TESTS COMMENCE, sufficient measurements shall be made to establish that the operation authorized in this construction permit is in compliance with the spurious emissions requirements of 47 C.F.R. Sections 73.317(b) through 73.317(d). All measurements must be made with all stations simultaneously utilizing the shared antenna. These measurements shall be submitted to the Commission along with the FCC Form 302-FM application for license.

## Special operating conditions or restrictions:

- 4 The permittee/licensee shall, upon completion of construction and during the equipment test period, make proper radiofrequency electromagnetic (RF) field strength measurements throughout the transmitter site area, including the immediate building and ALL other nearby buildings, to determine if there are any areas that exceed the FCC guidelines for human exposure to RF fields. Access to the roof or other parts of any building found to exceed the FCC RF guidelines must be restricted to prevent casual or inadvertent access. If necessary, a fence must be erected at such distances and in such a manner as to prevent the exposure of humans to RF fields in excess of the FCC Guidelines (OET Bulletin No. 65, Edition 97-01, August 1997). The fence must be a type that will preclude casual or inadvertent access, and must include warning signs, at appropriate intervals, which describe the nature of the hazard. Any areas within the fence found to exceed the recommended guidelines must be clearly marked with appropriate visual warning signs. PLEASE NOTE, THE RF MEASUREMENTS MUST BE TAKEN WITH ALL NEARBY AUXILIARY FACILITIES, INCLUDING THIS STATION AND STATION WXRK(FM), NEW YORK, NEW YORK (FACILITY ID: 58579), SIMULTANEOUSLY OPERATING.
  
- 5 Documentation demonstrating compliance with this special operating condition may be submitted in advance of the filing of the FCC Form 302-FM. The Commission's staff will review it for compliance and respond by letter stating whether automatic PTA has been reinstated.
