Special operating conditions or restrictions:

- 1 The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.

Special operating conditions or restrictions:

- 2 This authorization may not be modified before the close of the 2013 LPFM filing window unless the applicant files a satisfactory LPFM preclusion showing. Preclusion showings must be submitted in accordance with the requirements set forth in Attachment B to DA 13-283 (released February 26, 2013) and DA 13-454 (released March 18, 2013). Any modification application filed prior to the close of the LPFM filing window that does not include the necessary preclusion showing will be dismissed.
- 3 For the first four years of operation, this station cannot be moved to a site from which (calculated in accordance with the Standard Prediction Method) there is no 60 dBu contour overlap with the 60 dBu contour proposed in the original tech box proposal as of December 4, 2012. Any modification during the first four years of operation must maintain 60 dBu contour overlap with the proposed 60 dBu contour in the tech box proposal as of December 4, 2012. Periods of silence will not count for purposes of this condition.
