

Petition to Reconsider  
KKPM-CD Minor Modification  
File Number: 0000036125  
April 15, 2019

One Ministries, Inc. (OMI) respectfully requests a petition to reconsider the minor modification for KKPM-CD. One Ministries, Inc. never received a 30-day notice from the Commission and therefore apologizes for not responding within the 30-day period. It was unaware that a letter had been sent out.

Nevertheless, the dismissal letter did not address OMI's waiver request to move 39 miles.

OMI respectfully requests that the Commission first address the merits of OMI waiver request to move 39 miles. The dismissal letter stated the reason for dismissal was a move of more than 30 miles but made no mention about the waiver request being acted upon.

OMI had originally requested an increase in power to help overcome interference that will soon be seen from KBCW because of KBCW being repacked to co-channel 28 just 105 miles away. After months of the application sitting, the applicant instead amended to request a waiver to move 39 miles south. This proposed move would help overcome the onslaught of interference over the northern part of the Sacramento area that is covered by KKPM-CD. OMI has another LPTV to the north (KKRM-LD) that will continue to serve the Chico area. However, this proposed waiver request to move KKPM-CD will preserve viewership in the Yuba and Sacramento areas. Likewise, the Commission has granted a similar request in the Sacramento market for KCSO-LD to move 44 miles.

Sincerely,

A handwritten signature in black ink, appearing to read 'Keith J. Leitch', with a long horizontal flourish extending to the right.

Keith J. Leitch  
President and Engineer, One Ministries, Inc.
