Maxima 95.7 update

To info@suga957.com <info@suga957.com>

Good afternoon Mr. Williams, I hope this finds you well.

According to our GM, the company has filed with the FCC to change frequencies off of 95.7 in Golden Gate but it has not yet been granted. I poked around in the FCC database but didn't see anything in the correspondence folder. Government should be back to work now after the holidays so hopefully you will find some resolution soon.

Thank you for reaching out and good luck in 2020!

Christina St. Amand
