Informal Objection

Good afternoon,

I am writing to file an informal objection to the renewal application of W252AW, Chicago, IL, File No. 0000120118, Facility ID No. 149046, as this station's licensee has exhibited a pattern of acting in bad faith in relation to this translator and has submitted multiple applications with willful false claims.

Previous informal pleadings filed by Larry Langford, Jr. stated that his research had found that Centro Cristiano De Vida Eterna had falsely certified in multiple applications for licenses to cover that the station had been constructed, when in fact it had not, and had falsely claimed in its application for a silent STA that the reason for the translator's silence was transmitter trouble, when in fact the station had never been constructed. According to the correspondences available in the station's correspondence folder on the FCC's website, Centro Cristiano De Vida Eterna's did not file a response to Langford's specific allegations. The only responses that appear to be on file is Centro Cristiano De Vida Eterna's request that its application for license to cover in File No. BLFT-20170419A11 be dismissed, and to request on May 2, 2019, additional time to respond to the FCC's operational status inquiry. In light this pattern of bad faith actions and false claims on prior applications, I feel that this translator's renewal application should be denied.

Sincerely,

A handwritten signature in black ink that reads "Albert David". The script is cursive and fluid, with the first letters of "Albert" and "David" being capitalized and prominent.
