SUPPLEMENT TO RESPONSE TO OPPOSITION FOR INFORMAL OBJECTION

SIGA Broadcasting Corporation ("SIGA") wishes to supplement the previously filed response to the King Broadcasting Corporation ("KING") opposition to the informal objection to the above referenced license renewal application with a statement from the general manager of SIGA Broadcasting, Inc., Gabriel J. (Julian) Arango.

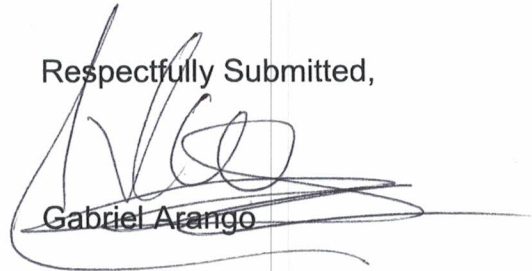

In addition SIGA has discovered that K269GT has not been re-broadcasting programming from the designated parent station, KHPT (FM) FID 69564 since October 18, 2021. The programming on K269GT is not any programming associated with KHPT, including the HD3 which is presumably what they were re transmitting. K269GT has been originating programming since or before October 18. See the sworn statements from a number of listeners attached.

I declare under penalty of perjury that the facts in this statement are true and correct to the best of my knowledge and belief.

Respectfully Submitted,

A handwritten signature in black ink, appearing to read 'Gabriel Arango', is written over a horizontal line. The signature is stylized with loops and a long horizontal stroke extending to the right.

President SIGA Broadcasting

I, Gabriel J. Arango, general manager of SIGA Broadcasting, Inc. state the following under penalty of perjury:

Both myself and with my father, Gabriel Arango, visited the site of the previously licensed K269GT (BLFT20190830ABE) on three different occasions before, on, and after April 19, 2021. We both listened to 101.7 fm , in the area of the alleged operation on these three occasions and heard no signal, either programming or a silent carrier from the facility.

In order to take the pictures of the cell tower in the Informal Objection, ASR 1302076, we walked and drove directly by the location of the alleged tower behind the Seeds of Praise facility. We literally walked by the location of the alleged 28 meter antenna support structure for K269GT. Nothing was present at this location.

Gabriel J. Arango
