Seattle, WA )

To: Office of the Secretary  
Attn: Chief, Audio Division, Media Bureau

Date: March 21, 2022

We, Andrea and David Knight, residing at 9790 NE Murden Cove Drive, Bainbridge Island, WA 98110, are continuing to experience blanketing interference from KKOL when broadcasting at 50KW. Please note our Petition to Deny Intelli LLC's license renewal application submitted on January 3, 2022 plus Supplements.

David Schutz of Hoffman Schutz Media Capital has been monitoring their transmission. He has been measuring the signal strength and imputed transmitting power of the three Murden Cove stations (log imbedded below).

We filed our Reply to Intelli's Opposition Response to our Petition to Deny late afternoon on February 22, 2022. Within about 12 hours, on February 23, 2022, Salem Media/Intelli reduced the KKOL broadcast power from its 50kW daytime power to their nighttime power level. It remained at their nighttime power level until March 9, 2022 when it was increased to 50kW. It has been operating at 50kW daytime since March 9<sup>th</sup>.

The following two events have occurred since March 9, 2022:

1. On Monday, March 14<sup>th</sup>, 2022, our electric car charger failed to charge our car overnight. The electric fuse in our garage was tripped so there was no power to the charger. We are confident that the fuse was tripped by KKOL broadcasting at 50kW, then reducing to the nighttime power level. The change in power level, whether up or down, will periodically cause this type of interference.
2. On Friday, March 18<sup>th</sup>, our DELL printer was knocked off our home office network again – this isn't the first time.

Again, we request the FCC deny Intelli's renewal application. They have not met their obligation to resolve blanketing interference issues as of this date.

Thank you.
